

## Specification

### Mono-ammonium phosphate

Content of available phosphates, in P <sub>2</sub> O <sub>5</sub> equivalent	52±1 %
water-soluble phosphates, in P <sub>2</sub> O <sub>5</sub> equivalent, min	21,8 %
Total nitrogen content	12,0±1 %
Water content, max	1,5 %
Granules size, by weight:	
1–4 mm, min less than 1 mm, max under 6 mm	09 % 2% 100%
Granules static strength (PMa), min	3
Friability, min	100 %
